

Governing Algorithms

A conference on computation, automation, and control

Discussion papers

Here are the discussion papers for the conference. We will add new ones as they come in.

Solon Barocas, Sophie Hood, and Malte Ziewitz

[Governing Algorithms – A Provocation Piece](#)

Tarleton Gillespie

[The Relevance of Algorithms](#)

- [Response by Kate Crawford](#)
- [Response by Martha Poon](#)

Frank Pasquale

[The Emperor's New Codes: Reputation and Search Algorithms in the Finance Sector](#)

- [Response by Moritz Hardt](#)
- [Response by Tal Zarsky](#)  [Request access]

Lucas Introna

[Algorithms, Performativity and Governability](#)

- [Response by Lisa Gitelman](#)
- [Response by Matthew Jones](#)

Daniel Neyland

[Bearing Accountable Witness to the Ethical Algorithm](#)  [Request access]

- [Response by Mike Ananny](#)
- [Response by Karrie Karahalios et al.](#)
