# The concept

As simple as 1,2,3

- 1. A researcher has an idea.
- 2. The researcher writes a **paper** based on this idea.
- 3. Using RunMyCode, the researcher creates a **companion website** associated with this paper. The companion website allows people to implement the methodology presented in the paper.

About

Create your own companion website

## RunMyCode goes global

The RunMyCode website now welcomes code and data from any research area:

Statistics
Chemistry
Computer and Information Sciences
Engineering
Geosciences
Mathematics
Medical Research
Physics

Biological Sciences Social Sciences

If you would like to help us to promote RunMyCode, please contact us at contact[at]runmycode[dot]org.

The RunMyCode Team

#### News

07/24

RunMyCode: a Revolutionary Scientific Research-Oriented Collaboration and Benchmarking Platform, international journal: advances in multimedia technology, juin 2013.

07/18

Reproductibility: Pour une recherche reproductible, publiez vos codes et données (Le monde Sciences et techno)

06/10

For technical reason tomorrow 06/11/2013, Companion Websites will not be accessible until 18:00 (Paris)

06/04

For technical reason, all the Companion Websites will be disconnected from the cloud until tomorrow 18:00 6m (Paris)

Addition of a code QR in the results of
